

REMARKS

Claims 1, 27, and 28 have been amended. New paragraphs for the summary of the invention and the abstract have been substituted for the existing summary of the invention and the abstract paragraphs. The remarks and amendments are to clarify the existing specification and to eliminate any ambiguity in the claims. The Examiner is being expressly put on notice that the amendments to the claims were not made to overcome the cited art. This note acts to overcome the presumption that any amendment to the claims is made in order to overcome the cited art. See Festo Corp. v. Shoketsu Kinzoku Kogyo Kabushiki Co., November 2000. Applicant respectfully submits that any modifications to the specification or the claims do not constitute new matter.

Consideration of the application as preliminarily amended is respectfully requested. If there are any additional charges, please charge them to our Deposit Account No. 02-2666.

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN LLP

## VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE SPECIFICATION

Paragraph number 0016 has been replaced.

IN THE CLAIMS

Please amend the following claims:

1. A method, comprising:

generating a list of one or more related documents ranked based upon relevance to a first representation of content associated with a first field of a reference extensible markup language document, the first representation including [of] a set of terms and one or more weighted values associated with each term in the set of terms; and  
generating a link to each of the one or more related documents.

27. [A] An article of manufacture being one or more machine-readable [medium] media that [provides] store instructions, which when executed by a machine, cause the machine to perform operations comprising:

generating a list of one or more related documents ranked based upon relevance to a first representation of content associated with a first field of a reference extensible markup language document, the first representation including of a set of terms and one or more weighted values associated with each term in the set of terms; and  
generating a link to each of the one or more related documents.

28. The [method] article of manufacture of claim 27, further comprising:

executing a query on the reference extensible markup language document to generate the list and the link without a user having to request the query.

IN THE ABSTRACT SECTION

The abstract paragraph has been replaced.
